

At page 2, in the continuation of item 10, "Other", of the Advisory Action, the Examiner requests Applicants to provide a drawing illustrating a "rib" as recited in Claim 9 (previously canceled, and its recitation incorporated into Claim 7), "to further clarify the claimed invention". The Examiner cites 37 C.F.R. § 1.83, requiring that the drawings must show every feature specified in the claims.

In response to this request, Applicants direct the Examiner to Figures 12A and 12B of the application, as originally filed, as illustrating the "rib" (reference designator 81) feature of the claimed invention. Support for this feature can also be found at least at page 24, lines 14-16. Accordingly, Applicants submit that the drawings fully comply with 37 C.F.R. § 1.83, and that the rib 81 of the frame member 11 is depicted in the above-mentioned figures.
